Smart Numbering & Versioning

Automatic invoice numbers with revision history after submission.

Connected to numbering config, next number, and invoice version APIs.

Next Invoice Number
INV-2026-0035

Numbering Configuration

GET/PATCH `/invoice-numbering/config/` and GET `/invoice-numbering/next/`.

Pattern
INV{SEP}{YEAR}{SEP}{SEQUENCE}

Year	Client Code	Sequence
2026	CLIENT	0001

Regenerate Preview | Toggle Active

Version Rules

- Increment revision when line-items, taxes, due date, or total changes.
- Preserve all submitted versions for full audit trail.
- Show who edited and when for every post-submit update.

Invoice Revision Timeline

GET/POST versions + GET detail + POST restore.

INV-2026-0004 | Manual Snapshot | Saved from invoice control panel

Create Version | Refresh Versions

v1 — Revised | Detail | Restore
