Core Non-Functional Requirement

Built for Performance & Reliability

Security First

JWT authentication ensures secure access and protected user data

Fast & Reliable

Optimized performance with high availability and minimal downtime

User-Friendly Design

Responsive interface accessible across all devices

Scalable Architecture

Modular design supports future growth and easy maintenance

High accuracy in time tracking and invoice calculations ensures you never miss billable hours or make costly errors

TECHNICAL SPECIFICATIONS

System Requirements

Hardware Requirements

- Processor: Intel i3 or higher
- RAM: Minimum 4 GB (8 GB recommended)
- Storage: 50 GB free disc space
- Display: 1366 × 768 resolution or higher
- Connectivity: Stable internet connection

Software Requirements

- Operating System: Windows, macOS, or Linux
- Backend: Django, Django REST Framework
- Frontend: ReactJS
- Database: MySQL
- Web Server: Apache or Nginx
- Browser: Chrome, Firefox (latest versions)
